Dynamic Degreaser

Environmentally Friendly • User Safe • Biobased Formula

For Use In Automotive, Industrial, Marine & RV

Action:

- ✓ A cleaner that provides very fast cleaning action by utilizing state-of-the-art **Dynamic Surfactants** technology.
- ✓ A highly concentrated, moderate foam, pH balanced, spray cleaner that quickly and easily removes a wide range of soils, oil, grease and grime, from light to heavy.
- ✓ Great as a general maintenance cleaning product for all vehicles, big and small.

Applications:

- ✓ A multi-surface cleaner for the removal of oil, grease and grime from a variety of surfaces.
- ✓ Use as a degreaser to remove tough grease from mechanical components, automotive engines, wheels, parts, tools, equipment and general clean-up of all vehicles.
- ✓ Use as a spot cleaner for inside of car, truck, boat or any other vehicle.
- ✓ Clean interior spaces, e.g. carpet, chrome, vinyl seats, mats, and plastic surfaces.
- ✓ Use for general maintenance of shops, labs and assembly lines, or as a boat bilge cleaner.
- ✓ Great as a grease remover before washing hands.

Benefits:

- ✓ Recognized by DfE U.S. EPA, solution meets and exceeds the USDA minimum for biobased content and is listed in "USDA's Biopreferred Catalog".
- ✓ Because it is a, non-flammable, safe degreaser, it can be used in confined spaces.
- ✓ Solution replaces hazardous solvents; contains no carcinogenic chemicals, no dyes, no fragrances and is readily biodegradable; safe for septic and grey water systems.
