Dynamic Scrubbing Cleanser

Environmentally Friendly • User Safe • Biobased Formula

A Super-Concentrated, Super-Versatile Cleanser

Action:

- ✓ A cleaner that provides very fast cleaning action by utilizing state-of-the-art **Dynamic Surfactants** technology.
- ✓ Quickly and easily removes all types of grease, oils and grime from hard surfaces.
- ✓ Super-concentrated - many times more scrubbing power than comparable products.
- ✓ Will not leave a messy, powdery residue; can be used with or without water.

Applications:

- ✓ Gently scrubs away soils, fats, greases and oils; wipes clean to a brilliant shine.
- ✓ Use it on ceramic stove tops, ceramic sinks, counter tops, cookware, faucets, stainless steel, tiles, toilets, tubs, and other hard surfaces.
- ✓ Gentle enough for ceramic stove tops and powerful enough for restaurant pots and pans.
- ✓ Takes off mineral deposits and soap scum from faucets, tubs and shower doors, mold and mildew from tile grout, and removes permanent Magic-Marker from glass.

Benefits:

- ✓ Recognized by DfE U.S. EPA, solution meets and exceeds the USDA minimum for biobased content and is listed in "USDA's Biopreferred Catalog".
- ✓ Cleansing power with natural pumice; does not contain bleach, calcium carbonate, or phosphates. Solution wipes away, easily, without leaving a powdery residue.
- ✓ An excellent alternative to other cleansing products; solution contains no carcinogenic chemicals, no organic solvents, no dyes, no fragrances and is readily biodegradable.
- ✓ Safe for septic and sewer systems.
