Dynamic Floor Cleaner

Environmentally Friendly • User Safe • Biobased Formula

A Low-Sudsing Floor Cleaner For Residential & Commercial Use

Action:

- ✓ A cleaner that provides very fast cleaning action by utilizing state-of-the-art *Dynamic Surfactants* technology.
- ✓ Solvents-Free solution that quickly and easily removes the toughest soils and grime.
- ✓ A powerful blend of ultra-safe ingredients that provide rapid removal of both oily and dry soils on a variety of floor surfaces.

Applications:

- ✓ Use only 1 to 2 ounces per gallon of water, depending on the level of soil to be removed
- ✓ May be used in a mop bucket or automatic floor scrubber, to clean, degrease, and brighten.
- ✓ Use in a pressure washer on tile floors and outdoors on pool decks.
- ✓ Use on ceramic tile, marble, stone, slate, brick, fiberglass tiles, vinyl, linoleum, and practically any water-washable surface.
- ✓ Can be used to remove heavily encrusted soil deposits, as long as the cleaning solution can encapsulate the soil particulate.

Benefits:

- ✓ Recognized by DfE U.S. EPA, solution contains no carcinogenic chemicals, no organic solvents, no dyes, no fragrances and is readily biodegradable.
- ✓ Solution, with concentrated cleaning power, produces low controlled foam, will not cloud or streak, does not require rinsing and is VOC-Free; safe for septic and sewer systems.
